

# RECENT EXPANSIONS AT OKONITE

During these economic uncertainties, Okonite will not sit back and rest on its success of the past. We continue to invest back into our Company, demonstrating to our loyal customers that they can always count on Okonite for new and innovative technologies that keep us ahead of the competition.

In the past couple of years, Okonite has expanded our Orangeburg, S.C., New Orleans, LA., Portland, OR, and Houston, TX. facilities. 2009 will be no different. We are currently in the process of expanding our Santa Maria complex and opening a new Service Center facility in Kansas City, MO.

The Santa Maria building expansion will be adding 57,510 sq ft. We also are adding outdoor concrete area for access and storage. The building will be equipped with a new dock for the receiving of compound. Two new state-of-the-art CV lines will be installed that are similar to the newest CV's featured in our Orangeburg plant. The plant infrastructure is being modernized with new substations, water and drainage systems, propane, nitrogen, bulk materials storage and delivery systems.

As for our new Kansas City Service Center, when complete it will be identical to our recently completed Houston, Texas complex.
